Dear V —

I just want to thank you for encouraging me to send positive home to my music students. I never thought these simple notes would mean so much my students.

A little boy came to me and said my note made his Mom cry, he shared with me that she was so proud of him. WOW

Thank you so much for helping me see how important it is to communicate to my music students in this way. IT has shocked me how much it means to my students and their entire family.

I have sent sixty notes to my students at North Side School so far. I will continue to write to my students because I see how very important it is to communicate with families in this way.

Thanks Again,

Suzanne Cofman
